Warsaw, June 28. N. S.

IN the Session of the Diet on the 24th Instant, they spent all their Time in Debates about chooſing a Marſhal, and the Diet being ſtill ſitting when the Poſt went away, it occaſioned a Report, that they had choſen the Sword-bearer of *Cracow*, who was propoſed by the Deputies of *Leſſer Poland*, pretending that the laſt Marſhal being a Deputy of *Lithuania*, it's now their Turn to have a Marſhal of their Province; But this was oppoſed by the Deputies of *Greater Poland* and *Lithuania*, the latter alledging, That though the Marſhal of the laſt Diet was choſen out of the Deputies of *Lithuania*, yet they had not loſt their Turn, by reaſon that Diet ſeparated without making any publick Act. And the Thing was ſo warmly diſputed, that they could come to no Concluſion therein. The Diet have met ſince every day, but have not yet fixed on the Choice of a Marſhal; In theſe Meetings, the Matter about the *German* Forces was again debated, and it was the Opinion of moſt of the Deputies, That the Regiments now encamped near this City, to the number of about 5000 Men, ſhould march to *Pruſſia*, to be in a readineſs to defend that Country in caſe of a Rupture with the Elector of *Brandenburgh*. A Motion was alſo made, that the Reſident of *Brandenburgh* ſhould be ordered to retire forthwith out of the Kingdom, but no Reſolution was taken thereupon. In the mean time the Cardinal Primate and the Crown General are daily expected here. The Deputies from ſeveral Palatinates are ſtill abſent, and ſome of them not yet choſen; upon which the King has ſent new Circular Letters to thoſe Provinces, Requiring them forthwith to ſend Deputies to the Diet. The Forces that are ordered to return to *Saxony*, are already arrived on the Borders of *Sileſia*, but are obliged to ſtop there, till ſome Matters relating to their Paſſage through that Country are adjuſted between the Commiſſioners appointed by the Emperor and this Crown for regulating the ſame. Our Letters from *Muſcovy* ſay, the Czar is raiſing a very numerous Army, and has ordered vaſt quantities of Proviſions and Ammunition to be got together, that a great number of Veſſels are building by his Direction, and that the *Muſcovites* are repairing and augmenting the Fortifications of *Azof*; Which Preparations are ſaid to be deſigned againſt the *Turks*, in caſe the Truce of Two Years concluded between the Czar and the Grand Signior at *Carlowitz* be not prolonged, or a Peace made.

It's ſaid, that as ſoon as this Matter is adjuſted, Count *Martinitz* will return hither to enter upon the Office of Captain of the Emperor's Guards which is lately given him, and the Count *de Lamberg* is already appointed to ſucceed him in his Embaſſy at *Rome*.
